

HAPPY TRAILS OLD FASHIONED HORSEDRAWN SLEIGHRIDES

WHAT TO BRING? Bring a blanket for each 2-3 people, keep blankets in the warm interior of your car, not in the cold trunk. Be sure your camera has film and fresh batteries...you'll get some great shots for wonderful memories. Keep your food plans simple - it really isn't a good time for a 5-course meal. Hot dogs, marshmallows, things to make s'mores, hot chocolate, soup, hot tea, and hot spiced cider are easy, popular foods to bring from home. For easy transport and handling, put soup, chili, or stew in a pot before you leave home; duct tape the lid on. When you reach camp, remove the tape and heat on a propane stove. Don't forget a ladle! Bring disposable cups, plates, bowls, and plastic forks and spoons. For a variation on traditional s'mores, try Cowboy S'mores made with a chocolate-covered graham cracker cookie instead of chocolate bars and graham crackers. Cowboy S'mores don't crumble as easily and kids love to make them for moms and dads! Buy a cookie large enough to accommodate a marshmallow - "Mother's Fudge and Graham" was voted best, but any brand will do. Bring along plastic and inflatable snow play devices for fun in the snow during the hour of playtime before the return half of the sleigh ride. Round saucer-type and inflatable devices give the best and safest ride; no wood or metal sleds please! We also have several inner tubes and other snowplay devices donated by previous customers for all to share. This hill has been mother-designed for the enjoyment of all. Dress in layers with windbreaker on the outside to be prepared for the varying weather conditions. Pack extra clothing to keep the children dry and at least 2 pairs of gloves. Check with us later if you lose anything. Pets are not allowed on sleighs or at camp. For their safety and comfort, leave them at home.

ARRIVAL TIME? It is a good idea to arrive 15-20 minutes before your reserved time so you can check in, pay the balance of your money, move your food and blankets from the car to the sleigh and add that last layer of clothing to keep you warm and dry. Remember!! Snow is wet.
